**Search tips:**

- Use less search criteria. The vast majority of well reports contain only the following index values:
  - Owner Name (the name of the property owner at the time the well was constructed)
  - Depth
  - Casing Diameter (a.k.a Well Diameter)
  - Well Completion Date
  - Township, Range, Section
  - County
- Try using only part of the owner's name or street address. For Example, instead of "123 Main Street", try "123 Main"
