

2 CY, front load dumpsters and compactor
(sample) shop drawings attached for reference.

A PORTION OF SEC 34, TWN 19 N, RGE 1 E, W.M., DUPONT, WASHINGTON

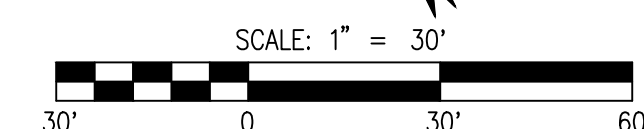

terior compaction rooms, exits are to the
erior of the building. No parking in stalls
acent to the entrances. The waste
nagement company typically rolls the 2CY
mpsters into the drive lane and then picks them
the truck. So we ensure the turn radius
und the building and the containers meet your
cifications.

Y, front load dumpsters and compactor
mple) shop drawings attached for reference.
